

## PECB Certified Cybersecurity Audit Foundation

Become acquainted with the best practices of Cybersecurity Audit based on ISO/IEC 27032 and other relevant audit standards.

### Why should you attend?

The Cybersecurity Audit training course encapsulates the basic knowledge of auditing a cybersecurity program. The content of this training course incorporates the essentials of cybersecurity auditing encompassed in a two-day foundation course. Cybersecurity audits are an essential tool in testing the effectiveness and safety of the mitigation strategies that organizations employ to protect their systems against cyberattacks. Moreover, candidates will become familiarized with the key concepts of cybersecurity. These key concepts include different controls such as preventive, detective and corrective controls, and more importantly the knowledge of applying the appropriate controls to various environments. During this training course you will be able to understand the different modules of cybersecurity audit, including the cybersecurity frameworks, management of the cybersecurity risks, audit activities such as the initiation of an audit and draft of audit reports, cybersecurity controls and audit strategies.

After completing this course, you can sit for the exam and apply for the “PECB Certified Cybersecurity Audit Foundation” credential. A PECB Foundation Certificate proves that you have understood the fundamental methodologies, requirements, framework and management approach.

<b>Who should attend?</b>	<b>Learning objectives</b>
<ul style="list-style-type: none"> <li>➤ Individuals involved in cybersecurity management</li> <li>➤ Individuals seeking to gain knowledge about the main processes of auditing a cybersecurity program</li> <li>➤ Individuals interested to pursue a career in cybersecurity audit</li> </ul>	<ul style="list-style-type: none"> <li>➤ Day 1: Fundamental concepts and principles of cybersecurity and cybersecurity auditing</li> <li>➤ Day 2: Introduction to cybersecurity audit criteria and the cybersecurity auditing process &amp; Certification Exam</li> </ul>
<b>Course agenda</b> <span style="float: right;">DURATION: 2 DAYS</span> <ul style="list-style-type: none"> <li>➤ Day 1: Fundamental concepts and principles of cybersecurity and cybersecurity auditing</li> <li>➤ Day 2: Introduction to cybersecurity audit criteria and the cybersecurity auditing process &amp; Certification Exam</li> </ul>	<b>Prerequisites</b> <ul style="list-style-type: none"> <li>➤ None</li> </ul>
<b>Examination</b> <span style="float: right;">DURATION: 1 HOUR</span> <p>The “PECB Certified Cybersecurity Audit Foundation” exam fully meets the requirements of the PECB Examination and Certification Program (ECP). The exam covers the following competency domains:</p> <ul style="list-style-type: none"> <li>➤ Domain 1: Fundamental concepts and principles of cybersecurity and cybersecurity auditing</li> <li>➤ Domain 2: Introduction to cybersecurity frameworks, audit criteria and auditing process</li> </ul> <p>For more information about exam details, please visit <a href="#">Examination Rules and Policies</a>.</p>	<b>Certification</b> <p>Upon the successful completion of the exam, you can apply for the “PECB Certified Cybersecurity Audit Foundation” credential.
