

## Eliza Popa - Sr. Information Security Consultant, Auditor and Trainer

Working with critical information infrastructure organizations since 1999, Eliza has been involved in IT digital transformation projects for 14 years, in and in the implementation of information security standards for over 7 years.

She held various roles such as Subject Matter Expert, Business & Functional Analyst, Supervisor, Project & Program Manager, Manager IT Processes & Security Compliance, Senior Security Consultant, and had contributed to the success of projects with budgets from \$300K to \$3.5M.

Among other activities, Eliza had conducted User Acceptance Testing, developed end user training materials for over 15 information systems and delivered training to over 1000 end users.

Beginning with 2016 she provided knowledge transfer to thousands of members of international online study groups, and many of them had successfully passed the examination and obtained security certifications such as CISA, CISSP, CISM, and CRISC.

Starting 2019 she is an (ISC)2 Official Training Instructor for CISSP, and PECB Certified Trainer for ISO 27001 Lead Implementer, ISO 27001 Lead Auditor, ISO 27005 Lead Risk Manager, and ISO 27032 Lead Cybersecurity Manager.
